

Igor Lech

Multimedia Design student

Personal profile:

I come from Poland and I am currently studying Multimedia Design at Business Academy Aarhus. I have strong interest in fields of Frontend Development, User Experience and User Interface Design. I consider myself a responsible, hard-working and proactive person with great experience in team working and communication with people. Positive attitude is also my main trait.

Education:

2021 - Now - Multimedia Design - Business Academy Aarhus

2018 - 2021 - Class with extended program in mathematics and physics - Nicolaus Copernicus High School in Lubin

Positions of trust and volunteer work:

President of the Student Council - Nicolaus Copernicus High School in Lubin (2019 - 2020)

As the Student Council leader, my responsibility was to manage the school community, act on behalf of the students, organise events and actions in school.

Team Member, SoMe Specialist, Logistics and Marketing Leader, Event Host - "Hau To Pet" Social Project (2019 - 2020)

I was the member of the team that created and led social project that aimed at creating series of events that gathered over 3000 people. During it I was responsible for leading social media profiles, gaining sponsors, performing interviews on stage and being the host of the event.

Team Member, Graphic Designer, SoMe Specialist - "Save Me" Social Project (2018 - 2019)

During the project I was responsible for leading social media profiles, creating graphics and gaining sponsors by arranging meetings.
